

## Overview

- 1 Transfer the missing titles from the Music Box® to your USB memory device.

- 2 Use your PC to update the titles on the USB memory device.

- 3 Transfer the titles from the USB device back to the Music Box®.

### Follow These Steps:

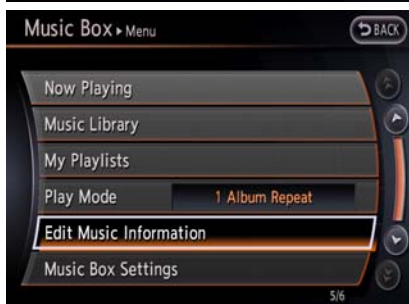

- 1 Transfer the missing titles from the Music Box® to your USB memory device.

Insert your USB memory device into the USB port (refer to the vehicle Owner's Manual for USB port location).

Select the **Menu** button on the Music Box® screen.

Scroll down and select **Edit Music Information**.

Select **Transfer Missing Titles to USB**.

Select all of the albums with missing titles that you wish to transfer.

Select **Transfer to USB**.

The missing titles are transferred to your USB memory device

The following message will be displayed on the vehicle screen when the transfer is complete.

[^ Back to Top](#)

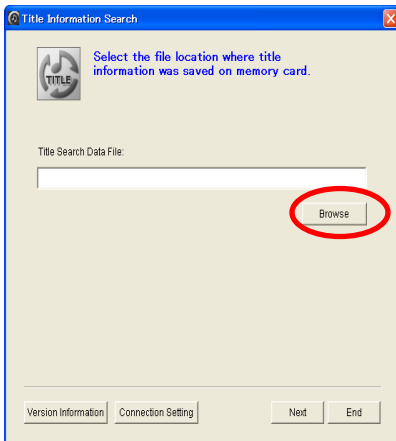

**2** Use your PC to update the titles on the USB device.

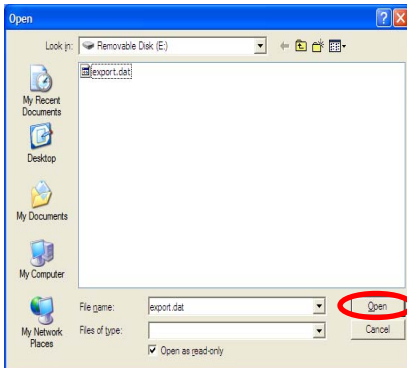

Connect your USB memory device to your PC.

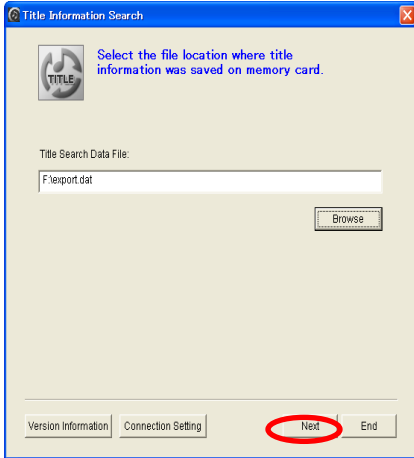

Double-click on the "TitleInfoSearch\_Navi.exe" file. If you haven't already downloaded it, [download it now](#).

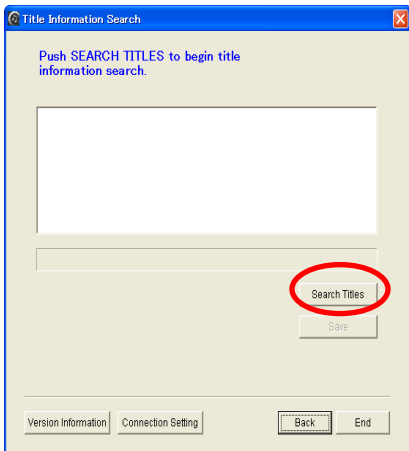

Click the **Browse** button.

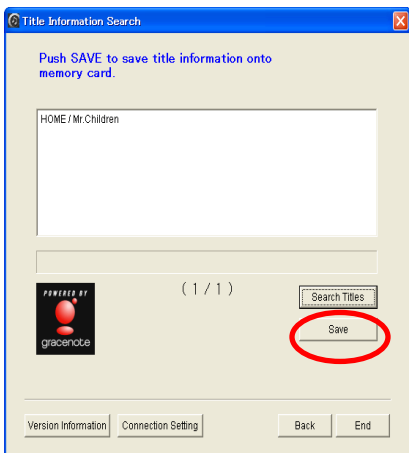

Find the USB memory device, select the "export.dat" file, then click the **Open** button.

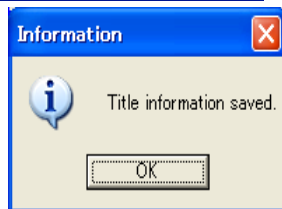

Click the **Next** button.

Click the **Search Titles** button. Note: When two or more titles are found for the same album, a popup window will appear. Select one of the titles and click **Select** to continue.

After the application has found all the titles, click the **Save** button.

Click the **OK** button.

Click the **End** button.

Remove your USB memory device from your PC.

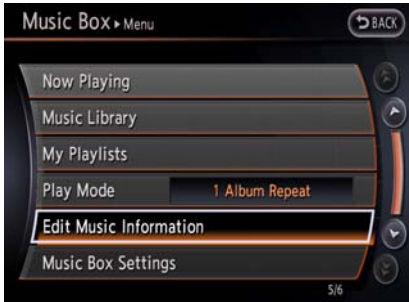

**3** Transfer the titles from the USB device back to the Music Box®.

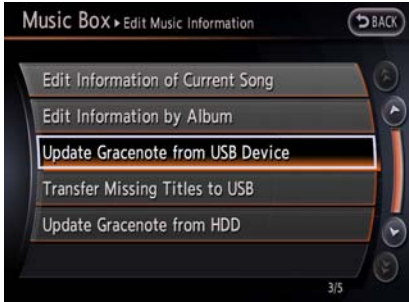

Insert your USB memory device into the USB port.

Select the **Menu** button on the Music Box® screen.

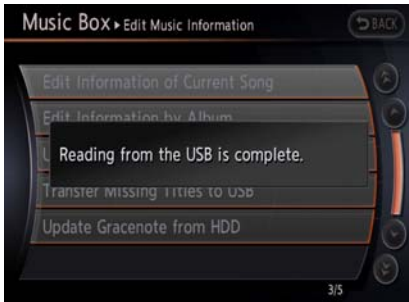

Scroll down and select **Edit Music Information**.

Select **Update Gracenote from USB Device**.

The vehicle begins transferring the updated titles from the USB memory device.

The following confirmation message is displayed when the transfer is complete.
